TRANS ISLAND ELECTROMECHANICAL L.L.C

&

TRUE LIGHT SCAFFOLDING & CONTRACTING

INTRODUCTION TO TRANSIZ GROUP

True Light Scaffolding & Contracting has been established in the year 2015 based in Abu Dhabi, UAE. We are a part of TRANSIZ, Trans Island Electromechanical LLC, one of the leading Electromechanical Contractor playing aviation Oil & Gas sector Abu Dhabi and all other GCC Countries.

True Light is specialized in scaffolding contracts & Hire jobs which is an essential and inevitable to all the Industries in Oil & Gas and other construction industries all over UAE. We have an experienced and dedicated team to undertake all types of scaffolding activities, Access Scaffolds & form work scaffolds. Our team consists of experienced managers, engineers to render practical solutions to the most technically challenging situations. We do Design, Supply, erection, inspection and Dismantling of all access and form work scaffolds.

Trans Island Electromechanical was founded in the year 2010 at Abu Dhabi. Initially we offered our services in electrical and instrumentation projects and expanded our services to BMS, HVAC, Network Access control solutions services.

During the last eight years, we have worked with internationally recognized Multi-National Companies, Government Entities and successfully managed more than 600 projects. We are Prequalified Sub-Contractors for ADNOC group of companies Honeywell Middle East, Yokogawa Middle East, ABB, Schneider Electric (Invensys), Emerson FZE, Rockwell Automation, Litwin, HIMA, Technip, Dodsai, Samsung Engineering, Emirates Steel, Takreer, Johnson Control, AGS, SKM, Telnstra, etc. We have an integration center/project office with covering area of around 7000sq.Ft.

We have more than a 100 personnel's under own visa and hires more than 200 personnel's such as technicians, Engineers, supervisors.

COMPANY PROFILE

True Light Scaffolding & Contracting has been established in the year 2015 based in Abu Dhabi, UAE. We are a part of TRANSIZ, Trans Island Electromechanical LLC, one of the leading Electromechanical Contractor playing a vital in Oil & Gas sector Abu Dhabi and all other GCC Countries.

True Light is specialized in scaffolding contracts & Hire jobs which is an essential and inevitable to all the Industries in Oil & Gas and other construction industries all over UAE. We have an experienced and dedicated team to undertake all types of scaffolding activities, Access Scaffolds & formwork scaffolds. Our team consists of experienced managers, engineers to render practical solutions to the most technically challenging situations. we do Design, Supply, erection, inspection and Dismantling of all access and formwork scaffolds.

SCAFFOLDING CONTRACTS

True Light undertakes long terms as well as short term scaffolding contracts works which includes Design, Supply, Erection & Tag Certification of scaffolding for Industrial Plants, Construction Industries, Oil & Gas Industries. Our competent and certified scaffolders and engineers together help in ensures safety and design requirement at site. We deliver customized and prepackaged safety, quality services to various industries. With the right skill and expertise, we always give importance to the customer satisfaction.

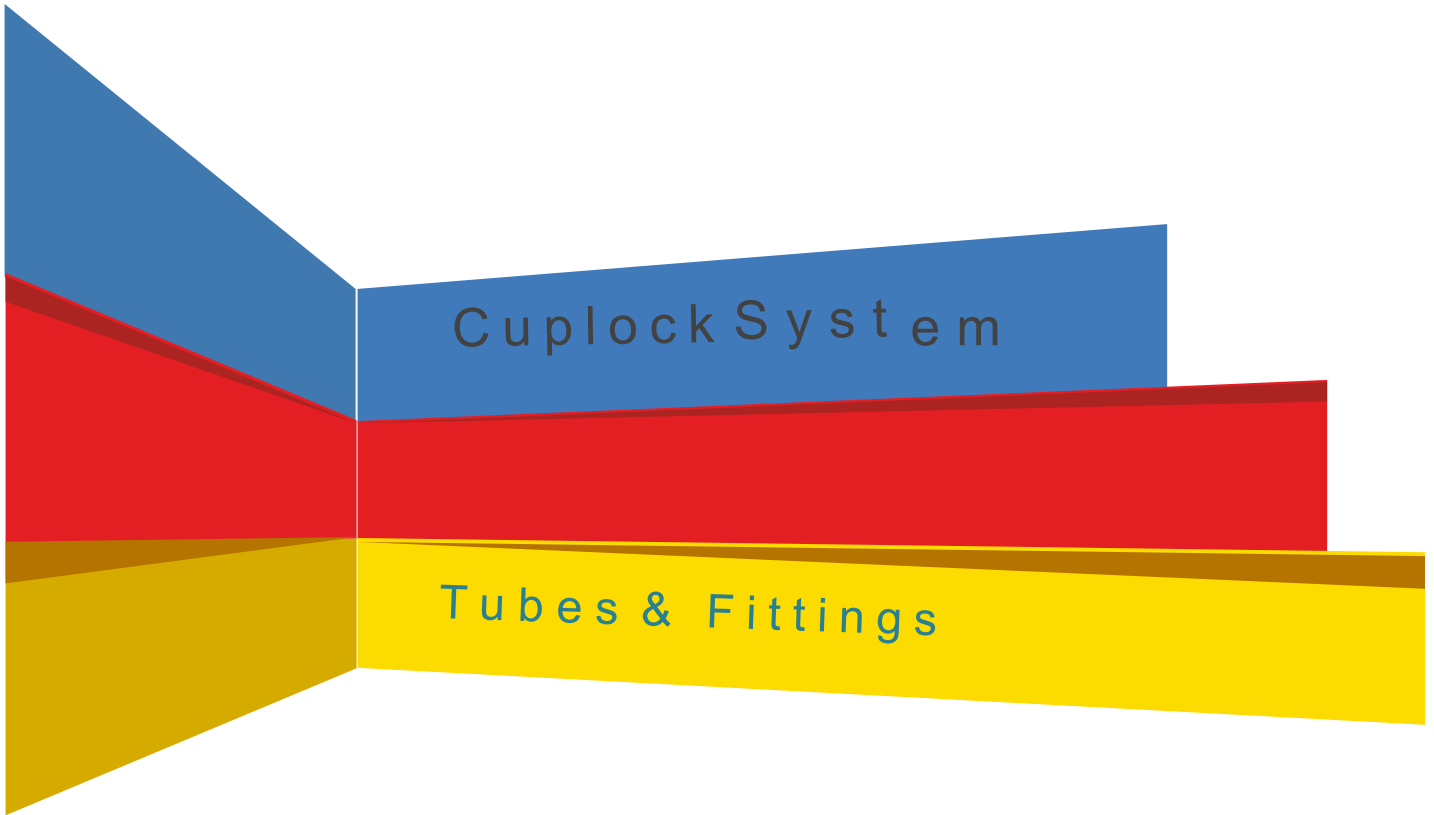

Our experienced project and engineering team will always assist the clients to identify the actual requirement of scaffoldings at the project site survey/visit. As we believe the safety and quality of scaffoldings are giving more importance by all the contractors/consultants we follow the BS en standards for our scaffolding materials and preparing the designs and calculations in line with the BS EN codes.

SCAFFOLDING HIRE

True Light undertakes the Hire Jobs, Design, Supply, Inspection & Certification of access and formwork scaffoldings. We have a wide range of scaffolding materials stocks for the access & Formwork scaffoldings. Our goal is provide prompt and efficient services at very competitive price with out compromising on the quality of material. Our proactive approach and close communication with customers help us under their needs and concerns to serve them better. We stick to stringent delivery schedules to facilitate timely availability of necessary material on construction sites.

Methods of building the **SCAFFOLDING**

Cuplock SYSTEM

*Convenient to use,
good bearing capacity,
good stability,
less chances of error.*

At the heart of the CUPLOCK system is its unique node-point locking device. This enables up to four horizontals to be loosely but safely connected to the standard then locked into position with a single hammer blow. The system uses no loose clips, bolts or wedges.

The locking device is formed by fixed lower cups, welded to the standards at 0.5m intervals, and sliding upper cups which drop over the blade ends of the horizontals and rotate to lock them firmly into place giving a positive, rigid connection.

It is this revolutionary node point which makes CUPLOCK faster and simpler to erect than any other system scaffold. Once a CUPLOCK structure is 'based out' and levelled, subsequent lifts are automatically erected square and horizontal. The lack of loose components makes the system easy to use and exceptionally robust - it's painted/galvanised finish making it virtually immune to corrosion and damage.

Tubes & Fittings SCAFFOLDING

*Inconvenient to use,
low bearing capacity,
low stability, difficult for storage.*

Scaffold couplers are essentially the fundamental component that is used to assemble tube-and-coupler scaffolding in which individual circular tubes serving as standards, braces or ties are joined together by means of purpose designed couplers'.

All Scaffold Couplers' compliance to BS EN Standards.

This basic fitting that is designed to join two scaffold tubes can be used to create a diverse range of scaffolding structures or used as an accessory to prefabricated scaffolding systems. This manual includes basic types of scaffold couplers which join two tubes together as well as special couplers used to connect scaffold tube to other components, equipment or structures.

Selection of APPROPRIATE SCAFFOLDING SYSTEM

The safe and efficient use of scaffolding depends first on choosing the right system for the job. If the scaffold's basic characteristics are un-matching to the task, or if all the necessary components are not available, personnel are forced to adopt make-shift arrangements and improvise. These unsafe conditions lead to accidents.

Proper selection of scaffolding and related components requires basic knowledge about site conditions and the work to be done.

Types of SCAFFOLDING

Scaffolding is a type of temporary structure that supports workers and or materials while other larger structures are being built, repaired or maintained. Scaffolding is made up of different frames and planks that are held in place by bolts or couplers. Depending on the purpose of the scaffolding, it can be made in different sizes and shapes. There are many types of scaffolding, but the most commonly used in industries are;

- ▣▣▣ Independent Scaffolds
- ▣▣▣ Tower Scaffold
- ▣▣▣ Mobile Scaffold
- ▣▣▣ Birdcage Scaffold
- ▣▣▣ Suspended Scaffold
- ▣▣▣ Cantilever Scaffold

Completed Projects

- ➡ ADCO DABBAYAH SURFACE PHRASE 3 PROJECT
- ➡ BEAT EXPANSION PROJECT, TAKREER RUWAIS
- ➡ DUBAI PARKS & RESORTS (DPR) PROJECT

MAJOR PROJECTS

MAJOR PROJECTS						
Project	Location	Client	Scope of Work	Starting Year	Status	Project Value
TAKREER - RRE	RUWAIS	TYCO	Scaffolding Erection & Dismantling (Contracts)	2018	Completed	AED 1,100,000.00
TAKREER - RRE	RUWAIS	YOKOGAWA	Scaffolding Erection & Dismantling (Contracts)	2015	Completed	AED 600,000.00
KIZAD WORKSHOP	KIZAD, ABU DHABI	UNITED STEEL	Scaffolding Erection & Dismantling (Contracts)	2019	Completed	AED 500,000.00
FACTORY	ICAD, ABU DHABI	ITTIHAD PAPER MILL	Scaffolding Erection & Dismantling (Contracts)	2020	Completed	AED 300,000.00
SEWA PLANT	SHARJAH	EMERSON	Scaffolding Erection & Dismantling (Contracts)	2020	Completed	AED 500,000.00
YASAAT	SWEIHAN	YASAAT	Scaffolding Erection & Dismantling (Contracts)	2018	Completed	AED 700,000.00
MEDICLINIC	ABU DHABI	AL TAYER	Scaffolding Erection & Dismantling (Contracts)	2020	Completed	AED 300,000.00
GENERAL WORKS	ABU DHABI	HONEYWELL	Scaffolding Erection & Dismantling (Contracts)	2017	Completed	AED 650,000.00
GENERAL WORKS	ADCO - ASAB	YOKOGAWA	Scaffolding Erection & Dismantling (Contracts)	2016	Completed	AED 250,000.00
GENERAL WORKS	ADCO - QUASHWIRA	YOKOGAWA	Scaffolding Erection & Dismantling (Contracts)	2018	Completed	AED 300,000.00
GENERAL WORKS	RUWAIS	AG Facilities	Scaffolding Erection & Dismantling (Contracts)	2019	Completed	AED 400,000.00

CERTIFICATE

Management system as per
ISO 9001 : 2015

In accordance with TUV Middle East procedures, it is hereby certified that

Trans Island Electromechanical LLC - Commercial Unit
Warehouse No. 2, Plot No. 64
M-40, Mussafah, Abu Dhabi
United Arab Emirates

applies a management system in line with the above standard for the following scope

Importing, Assembly, Installation and Maintenance of Control Panels, Onshore and Offshore Oil and Gas Fields Site Relative Services

Certificate Registration No. DAC 03 00438
Audit Report No. 1010 2843

Valid from 13-04-2018
Valid until 12-04-2021
Initial certification 2015

Certification Body
Dubai, 12-03-2018

This certification was conducted in accordance with the TUV Middle East auditing and certification procedures and is subject to regular surveillance audits.

TUV Middle East | No. 202, Dubai Real Estate Center, Al Mina Road, Sitra, P. O. Box 79123, Dubai, UAE | www.tuvms.com

Certificate Of Registration

Awarded to

TRANS ISLAND ELECTROMECHANICAL L.L.C – GROUP OF COMPANIES

at
P.O. BOX NO: 34949, COMMERCIAL WAREHOUSE-2, M-40, MUSAFFAH, ABU DHABI, UAE

Quality Registrar Systems certify that the management system of the above organization has been audited and found to be in compliance with the QRS requirements for registration of the management system standard detailed below:

ISO 14001:2015

Environmental Management Systems
Scope of work

- ▶ IMPORTING AND TRADING OF ELECTRICAL & MECHANICAL EQUIPMENT
- ▶ INSTALLATION AND MAINTENANCE OF MEASUREMENT & CONTROL EQUIPMENT
- ▶ OPERATION AND MAINTENANCE OF ELECTRICITY PLANTS & NETWORK
- ▶ SERVICES FOR ONSHORE AND OFFSHORE OIL AND GAS FIELDS AND FACILITIES
- ▶ SCAFFOLD INSTALLATION WORKS
- ▶ METAL CONSTRUCTION CONTRACTING
